

WHO IS THE MTA?

We, the trappers of Montana, join together to create a more effective voice through cooperative efforts in the conservation and management of Montana's furbearing animals, in the development and application of proper and effective predator control methods, and to develop and maintain the public image of trapping as a legitimate, desirable, and compatible enterprise of modern man; to stimulate an increased understanding and awareness of the impact of modern society and man on his environment; and to encourage citizen, legislative and administrative action toward the protection and restoration of our natural and historical heritage, and the creation of trapper attitudes which reflect these values, through creative planning and education.

ARTICLES OF CONDUCT

1. Help perpetuate quality habitat
2. Respect the animals - trap humanely
3. Urge that furs be used for true needs of people
4. Take good care of furs from trapline to market
5. Respect fellow trappers and other land users
6. Support research in trapping methods and requirements of furbearing wildlife
7. Know the laws, obey the laws, help enforce the laws
8. Trap according to management objectives for the land
